MD ROHED

ABOUT ME

Hi there! I'm Rohed, a passionate and self-driven Frontend Developer with over two years of hands-on experience. I specialize in building dynamic and responsive web applications using a robust tech stack, including JavaScript, TypeScript, React JS, Redux, Tailwind CSS, and Next.js. I am eager to advance my career in software development, where I can continually grow, innovate, and excel in challenging environments.

WORK EXPERIENCE

Appnap Technologies Limited 2023- May, 2024

Junior Software Engineer

- Writing clean, high-quality, high-performance, maintainable code.
- Contributed to the development of multiple projects from inception to completion, with a focus on frontend development.
- Proficient in API integration, feature development,
- Proficient in XML generation with integrated metadata handling
- Collaborate with senior developers to update the website and create new features

Popular Tours & Travel June, 2024 - Present

Frontend Developer

- Ensure high performance and scalability in all developed features.
- Translate design specifications into fully functional and responsive web applications.
- Optimize user interfaces for maximum speed and scalability across devices and platforms.
- Perform thorough code reviews to maintain quality, security, and compliance.
- Work closely with developers, designers, and product managers on updates and new features.
- Refactor and optimize legacy codebases to meet current standards and performance.

PROJEECTS

AmarPet   **https://amarpet.com/**
- Integrated APIs to enhance website functionality and performance.
- Designed the user interface to prioritize user experience and visual aesthetics.
- implement ssr,ssg and custom page revalidation.
- Integrated third-party APIs such as Google Analytics and Facebook Pixel for advanced analytics and monitoring capabilities.

PROJEECTS

Robodocbd   **https://robodocbd.com/**
- Integrated APIs to enhance website functionality and performance.
- Designed the user interface to prioritize user experience and visual aesthetics.
- Implement multiple payment method including Bkash, SSL and Expreess Delivery Method
- Collaborated with cross-functional teams to integrate Docker into the CI/CD pipeline,

Tailwind Component Library
Contributed to the development and maintenance of a React and Tailwind CSS component library.
- Designed and developed reusable React components using Tailwind CSS
- for styling.
- Implemented responsive design principles to ensure compatibility across
- various devices and screen sizes.
- Collaborated with team members to enhance the library's functionality and
- usability.

B2B Travel Website
- Refactored existing codebase for enhanced performance and maintainability.
- Implemented new design and features with a focus on responsive user interfaces.
- Integrated user analytics tools for data-driven decision-making.
- Enhanced website security to protect user data and improve overall site reliability.
